About A2iA

A2iA (Artificial Intelligence & Image Analysis), founded in 1991, headquartered in New York and Paris, is known as the worldwide leading developer of Intelligent Word Recognition (IWR) technology for extracting information from natural freeform and cursive handwriting on paper documents. The company's technology has been helping paper-intensive industries reduce data entry costs and improve business process automation for 15 years. A2iA's recognition engines harmonize their OCR, ICR and IWR technologies with their image analysis, artificial intelligence and neural network systems to enhance solutions from the world's leading systems integrators and other independent software vendors.
