

FOR IMMEDIATE RELEASE

A2iA & SYSTRAN Announce a Webinar to Showcase Collaboration around Digital Transformation & Multi-Lingual Text Translation

Combined capabilities powered by artificial intelligence & machine learning-based software

New York, and Paris, France, November 16, 2017 – A2iA ([@A2iA](#)), an award-winning developer of artificial intelligence and machine learning based software for the worldwide data capture and document processing markets, announced that they will be hosting a webinar with SYSTRAN, a global leader in language translation technology. During this event, attendees will see an exclusive view of how A2iA’s advanced text recognition engines enable more access to complex and handwritten data with SYSTRAN’s neural translation solution, bringing enhanced automation and productivity to the commercial market.

“A2iA and SYSTRAN have partnered for many years on R&D projects, bringing about advanced recognition and automation capabilities for research innovation and government solutions,” said Elsa Sklavounou, PhD, SYSTRAN Partnerships Director and Senior Linguistic Expert. “During the webinar, we will collaboratively show how the commercial market can benefit from our AI and machine learning capabilities.”

The online event will be held on Thursday, December 7, 2017, at 10 am EST, 4 pm CET, 8 pm IST. To register visit: www.a2ia.com/systran-webinar

About A2iA

Award-winning with research and development at its core, A2iA, Artificial Intelligence and Image Analysis (www.a2ia.com), is a science and R&D driven software company with deep roots in artificial intelligence, machine learning and neural networks. With simple, easy to use and intuitive toolkits, A2iA delivers add-on features to speed automation, simplify customer engagement and quickly capture all types of printed and handwritten data from documents – whether captured by a desktop scanner or mobile device. By enhancing solutions from systems integrators and independent software vendors, A2iA allows complex and cursive data from all types of documents to become part of a structured database, making it searchable and reportable, with the same level of flexibility as printed or digital data. For more information, visit www.a2ia.com or call +1 917-237-0390 within the Americas, or +33 1 44 42 00 80 within EMEA, India or Asia.

About SYSTRAN

SYSTRAN is transforming the way global organizations meet the challenges of communicating globally via advanced machine-based translation technology. With a new generation of Machine Translation that combines Neural Networks, Deep Learning, and Artificial Intelligence, SYSTRAN is providing large organizations significant productivity gains in areas such as collaboration, data compliance, eDiscovery, intelligence, customer support, and cross-border communications/marketing. SYSTRAN is headquartered in Seoul with R&D Center in Paris and office in San Diego. For more on SYSTRAN visit www.systransoft.com.
