A2iA & Contact Innovations Announce an Expanded Partnership with the Addition of a Mobile Remote Deposit Capture Offering, Supporting the Adoption of Image-Based Check Truncation in Canada

New York, December 9, 2014 – A2iA ([@A2iA](#)), an award-winning developer of software for the worldwide data capture, document processing, and payment systems markets, announced it has expanded its 10-year partnership with [Contact Innovations](#), a Toronto-based software solutions provider specializing in the design, development and hosting of enterprise transaction and payment processing solutions. Contact Innovations will now offer IA (ImageArchive) Mobile, an end-to-end mobile remote deposit capture (mRDC) solution that utilizes [A2iA Mobility](#)[™] as its core image processing and data recognition engine, allowing for an offline mobile image truncation solution within the United States and Canada.

“The IA product suite is easy-to-use and proven to accelerate payment processing through a variety of input channels. *A2iA Mobility* supports this strategy as a powerful tool that offers a seamless and simple user experience,” said Cliff Copeland, President, Contact Innovations. “Its country-specific versions and ability to recognize checks written in both English and French allow us to achieve extremely high read rates and meet the needs of our U.S. and Canadian banking partners.”

A2iA Mobility, a patented software toolkit, sits seamlessly inside of IA Mobile and supports real-time business operations by enabling users to quickly process checks with their mobile phones or tablets regardless of whether or not they have Wi-Fi or a data connection. Once transmitted to the workflow, IA delivers a comprehensive way to index, store, archive and retrieve all financial documents, in addition to creating an X9 file for transmission to a partner financial institution, payment processor or the Federal Reserve Bank.
