**A2iA Named Among KMWorld's *100 Companies that Matter in Knowledge Management* for the Fifth Year**

*A2iA recognized for its key role in streamlining complex document workflows.*

**NEW YORK, February 28, 2013** – A2iA ([@A2iA](#)), the industry's leading cursive handwriting and text recognition, and document classification software developer, announced today its inclusion among KMWorld's 2013 list of *100 Companies that Matter in Knowledge Management*, marking the fifth year that A2iA has been awarded this distinction. A2iA's intelligent data extraction and document analysis technology is proven worldwide to streamline complex document workflows allowing previously inaccessible data to become searchable and reportable.

"A2iA continues to dedicate itself to the creation of innovative recognition solutions that meet the ever-changing knowledge management needs of the Global market," says Hugh McKellar, KMWorld Editor-in-Chief. "KM practitioners, theorists, analysts, vendors and their customers and colleagues vote to recognize technologies which impact this space based on real world requirements."

For more than 22 years, A2iA has been committed to the research and development of its handwriting recognition and document classification solutions to create more efficient ways for organizations to improve business intelligence. Available in 24-country versions and 7-languages, A2iA's award-winning toolkits are trusted worldwide to streamline document workflows and reduce the need for data-entry throughout industries such as banking/finance, healthcare, insurance, government, and service bureaus/outsourcing firms.

**About A2iA**

[A2iA](#) (@A2iA) is the worldwide leading developer of handwritten and machine printed text recognition, information extraction and intelligent document classification toolkits. By enhancing solutions from integrators and independent software vendors, A2iA allows complex and cursive data from all forms, documents and checks including unstructured handwritten letters, to become part of a structured database, making it searchable and reportable, with the same level of flexibility of printed or digital data. Proven to reduce costs and nearly eliminate data-entry and manual document processing, A2iA's technology has been improving business process automation and providing a visible ROI for over 20 years.
