Coming Soon: A2iA's Technology for Mobile!

NEW YORK / PARIS, September 5, 2012 – For more than 20 years, A2iA's technology has been trusted and successfully deployed within the global payment systems and document processing markets and soon, will be available for mobile devices!

With a history rich in research and development, A2iA's R&D team is continuously developing innovative capabilities to meet market-demands and has developed a new, cutting-edge recognition and data extraction software that can be applied to a multitude of document types, such as checks and payment documents, ID cards, credit cards and other documents captured on your smartphone or tablet!

Soon available for iOS and Android platforms, this technology will take mobile document processing steps beyond where it is today by advancing solutions and improving the user experience -- for mobile banking and document management applications utilized within the Insurance, Healthcare, Retail, and Financial Services industries, and more.

Stay tuned to learn more as we bring this new product and capabilities to market!

About A2iA

[A2iA](http://www.a2ia.com), Artificial Intelligence and Image Analysis (www.a2ia.com / [@A2iA](https://twitter.com/A2iA)), is the worldwide leading developer of handwritten and machine printed text recognition, information extraction and intelligent document classification toolkits. By enhancing solutions from systems integrators and independent software vendors, A2iA allows complex and cursive data from all forms, documents and checks including unstructured handwritten letters, to become part of a structured database, making it searchable and reportable, with the same level of flexibility of printed or digital data. Proven to reduce costs and nearly eliminate data-entry and manual document processing, A2iA has been improving business process automation and delivering a visible ROI for over 20 years. For more information, visit www.a2ia.com or call +1 917-237-0390 within the Americas, or +33 1 44 42 00 80 within EMEA or Asia.
