New Release of A2iA Mobility Delivers Full Check Recognition to the Device for U.S. Checks, and Expands its Global Footprint with Support for New Countries

A2iA Mobility offers client-side, offline capabilities including all check usability, image analysis and data recognition features, plus document preprocessing and image clean-up.

New York, November 6, 2014 – A2iA ([@A2iA](#)), an award-winning developer of software for the worldwide data capture, document processing, and payment systems markets, released a new version of [A2iA Mobility](#)[™], its patented software toolkit dedicated to offline mobile data recognition and image analysis. With an expanded list of features and new country versions, *A2iA Mobility* meets local truncation requirements around the globe and enables financial institutions, corporations, and merchants to deliver a robust mobile payment and document processing app to their users' devices.

New features for the North American territory include additional fields of recognition, supporting full-check, offline processing for the United States. For a complete list of new features and countries supported, please contact an A2iA Product Specialist at www.a2ia.com/contact-us.

- Reduced overall package size for U.S. and Canadian versions.
- For checks:
 - Recognition of check number (U.S. + Canada).
 - Recognition of date (U.S. + Canada).
 - Recognition of address (U.S.).
 - Recognition of payee name (U.S.).
 - Recognition of payer name (U.S.).
- For identity documents:
 - Recognition of MRZ code lines printed on Travel Identity Documents (such as passports).

Supporting real-time business operations, [A2iA Mobility](#) is driving accelerated transactions for checks and payments, identification cards and trailing forms and documents. *A2iA Mobility* is available for integration into Android and iOS apps, allowing software developers to customize the interface and experience for their specific users.

About A2iA

For more than 23 years, [A2iA](#) has been committed to the research and development of its handwriting recognition and document classification solutions to create more efficient ways for organizations to improve business intelligence. Available in 26-country versions and 7-languages, A2iA's award-winning toolkits are trusted worldwide to streamline document workflows and reduce the need for data-entry throughout industries such as banking/finance, healthcare, insurance, government, and service bureaus/outsourcing firms. For more information, visit www.a2ia.com or call +1 917-237-0390 within the Americas, or +33 1 44 42 00 80 within EMEA or Asia.
